Hello Kenneth,

I am Jessica Kessinger with the DSHS Health Assessment and Toxicology Program. I am the health assessor and will be looking into the data and developing a Health Consultation document for the Lane Plating site. I have many documents for this site that were given to me by Bret back in January... I just wanted to ensure that we have all the data before we start this process. So I just wanted to ask a few questions...Has EPA conducted any data sampling events after what I believe to be the latest sampling event which was July 18-21, 2016? Also, could we have the analytical report on that sampling event? I did not receive it as a reference to the SI. Reference 42. (if it electronic that would be great!)

I look forward to working with you and would appreciate any invitations in regards to meetings/open houses/updates regarding this site.

Thanks,

Jessica Kessinger, MPH
